BUDGE BUDGE INSTITUTE OF TECHNOLOGY
CGPA - 7.75

DIPLOMA IN COMPUTER SCIENCE AND TECHNOLOGY : 2021-2024
BUDGE BUDGE INSTITUTE OF TECHNOLOGY
Percentage - 75%

🛠️ Project

- **SMART TRAFFIC MANAGEMENT SYSTEM**

Traffic density of lanes is calculated using image processing which is done of images of lanes that are captured using digital camera. According to the traffic densities on all roads, This model will allocate smartly the time period of green light for each road. We Languages have chosen image processing for calculation of traffic density as cameras are very much cheaper than other devices such as sensors.

- **PORTFOLIO WEBPAGE**

Designed and developed a responsive personal portfolio webpage ENGLISH using HTML and CSS. Implemented modern design principles to showcase projects, skills, and achievements. Utilized CSS for styling, including animations and transitions, to enhance user Experience

- **NETFLIX UI CLONE**

Created a Netflix user interface clone using only HTML and CSS. Implemented responsive design techniques to ensure compatibility across various devices. Demonstrated proficiency in HTML and CSS by replicating key features of the Netflix interface, such as the navigation bar and grid layout for content display.
